

WAYNE COUNTY HOME VISITING PROGRAMS FOR PARENTS OF YOUNG CHILDREN

Call 961-BABY (Detroit) or 844-321-GROW (Wayne County) or visit www.greatstart.org/homevisiting for more info.

All services are free to qualifying families!

Check the boxes below that meet your needs to help you find the right home visiting program for your family.

1

EARLY HEAD START

- Serves low-income, at-risk children ages birth-3 yrs. and pregnant women. Children with disabilities welcomed.
- Services include: education, health, nutrition, mental health, disabilities, and parent engagement.
- Services are provided weekly, are center or home-based, and are no cost to families.
- All children receive health, dental, and developmental screenings.

2

NURSE FAMILY PARTNERSHIP

- Serves first-time mothers under 28 weeks of pregnancy who live in Detroit and are low income.
- Must be the mother's first live birth.
- Home visits are provided by nurses.
- Families are visited weekly for 1-1½ hours.
- Nurses continue with the family until the child is two years old.

3

MATERNAL INFANT HEALTH PROGRAM

- Promote healthy pregnancies, positive birth outcomes, and healthy infant growth and development of Medicaid-eligible pregnant women and infants.
- Provides services by licensed social workers and nurses based on parent's needs and risks.
- Mothers receive 9 home visits. Infants and their caregivers receive up to 36 visits based on their risks.

4

PARENTS AS TEACHERS

- Serves pregnant women and families with children birth to age 5 for up to two years.
- Services include: home visiting, group meetings, developmental screenings and resource connections.
- Strengthens families and ensures that children are healthy.

5

HEALTHY FAMILIES AMERICA

- Serves mothers ages 13-24 who are prenatal or within the child's first 3 months of birth through weekly home visiting services.
- Provides trained community health workers offering parent/child support, ongoing screening and assessment of families needs.
- Services are free serving low or no income mothers in Hamtramck, Highland Park, Belleville, Inkster, Taylor, Romulus, Westland, and Redford.

6

INFANT MENTAL HEALTH

- Provides weekly home-based therapy for expectant parents with young children up to age 6.
- Serves Medicaid-eligible parents experiencing stress, depression, difficulty coping and behavioral challenges with their young children.
- Designed for parents who feel their baby is difficult to soothe, seems uninterested in engaging or has difficulties eating or sleeping.

What parents are saying about their home visitor:

"I felt secure in knowing that I had someone that I could talk to about anything in regards to my child and that my son had another advocate fighting for him." – MG

"The constant reminders that each child develops at his or hers own pace has assured me to not only try new innovative methods, but continue to incorporate those tried and true past successes in my child's development." – JAP

This project is/was supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under D89MC26358, The Maternal, Infant, and Early Childhood Home Visiting Program, for grand amount \$6,681,600.
